ENC-ME Series Assembly Instructions Guide

Step 1: Push-on Magnetic Hub Installation Slip Push-on Magnetic Hub over shaft and firmly press down until top of shaft fills cavity of hub.

Step 2: Encoder Body Installation

Places Encody Body over shaft assembly so that it sits on mounting surface.

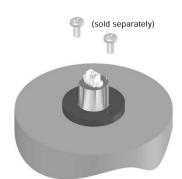

Step 3: Base Installation

With recess in base facing towards mounting surface, place base over Encoder Body so that flange of body fits into recess of base.

Step 4: Fastening Encoder in Place

Secure base to mounting surface with two $#4-40 \times 1/4$ " pan head screws (sold separately). If desired, encoder can be powered up and rotated by hand to any desired absolute position before these screws are tightened.
