

TBI Ball Screw Support Units

FK Series

FEATURES

- Fixed-Side Rectangular Type
- Ball Screw Diameter: 10mm to 40mm
- Input Shaft Diameter: 8mm to 30mm
- Allowable Axial Load: Up to 939Kgf
- Allowable Static Load: Up to 1388Kgf
- Maximum Speed: Up to 16,800RPM
- Applicable Screw Accuracy: C3, C5, or C7
- Low Profile Design
- Black Oxide Surface Treatment

DESCRIPTION

The Round-Type FK Fixed-Side Support Unit Series are available to fit input shaft diameters ranging from 8mm to 30mm. These support units are compact in size and allow for easy installation. All support units come with angular contact bearings which are assembled with the correct preload and amount of lubrication. These support units have an allowable axial load up to 939Kgf, allow static load up to 1,353Kgf, and can handle speeds up to 28,000RPM (model dependent).
